Phishy Flowchart

Use this handy chart to help identify phishing emails and make sure you don't take the phishing bait!

symsafe

Symsafe is a leading provider of powerful and affordable IT infrastructure management services. We provide managed services for organisations worldwide, regardless of type, size, or IT infrastructure complexity. We powerfully monitor and manage the performance of their IT environments, whether on-premises, in the cloud, or in hybrid models. We continuously engage with all types of technology professionals—IT operations professionals, DevOps professionals, and other managed service providers (MSPs)—to understand the challenges they face maintaining high-performing and highly available IT infrastructure. Targeted for all verticals, the Symsafe MSP product portfolio delivers broad, scalable IT service management solutions that integrate layered security, collective intelligence, and smart automation. Our products and solutions are designed to provide highly effective outsourced IT services for Enterprise & SMB end customers.
